

SFISSOXXX	Abalone Diver Environmental Management Skill Set
------------------	---

Modification History

Release	Comments
Release 1	This version released with Seafood Industry Training Package Version 1.0. Supersedes and is equivalent to SFISS00012 Abalone Diver Environmental Management Skill Set. SFIOBSV301B Monitor and record fishing operations removed. Content covered in SFIOBS302 Collect reliable scientific data and samples.

Description
 This skill set is designed to prepare divers with the skills and knowledge to perform resource monitoring and environmental assessment of abalone fisheries.

Pathways Information
 These units provide credit towards a large number of qualifications in the SFI Seafood Industry Training Package, including but not limited to SFI30118 Certificate III in Aquaculture and SFI30218 Certificate III in Fishing Operations.

Licensing/Regulatory Information
 Licensing and regulatory requirements apply to SFIV310 but vary according to state/territory requirements. Occupational diving is regulated independently by each state and territory workplace health and safety authority. Users are advised to check with the relevant authority to confirm current requirements.

- Skill Set Requirements**
- SFIDIV310 Perform diving operations using SSBA
 - BSBSUS301 Implement and monitor environmentally sustainable work practices
 - SFIXSI302 Act to prevent interaction with protected species
 - SFIFSH302 Collect reliable scientific data and samples

Target Group
 This skill set is for divers working in abalone fisheries.

Suggested words for Statement of Attainment
 These competencies meet industry requirements for abalone divers performing resource monitoring and environmental assessment of abalone fisheries.
