Release 1	This version released with SFI Seafood Industry Training Package Version 1.0.

SFI50118	Diploma of Aquaculture																
<p>Qualification Description</p> <p>This qualification reflects the role of individuals who work in the aquaculture sector of the seafood industry at a management or leadership level. In this role, these individuals design, plan and implement programs, risk strategies and sustainable practices for an aquaculture enterprise that comply with a wide range of legislative and regulatory requirements.</p> <p>The environments in which these individuals work include:</p> <ul style="list-style-type: none"> • aquaculture farms or fishout/put-and-take operations • companies providing contract specialist services for aquaculture operations • companies providing consultancy, advisory, equipment sales or other services • hatcheries and nurseries • live post-harvest holding facilities, such as processing plants, wholesalers or transporters. <p>No occupational licensing, legislative or certification requirements apply to this qualification at the time of publication.</p>																	
<p>Entry Requirements</p> <p>There are no entry requirements for this qualification.</p>																	
<p>Packaging Rules</p> <p>To achieve this qualification, competency must be demonstrated in:</p> <ul style="list-style-type: none"> • 12 units of competency: <ul style="list-style-type: none"> • 2 core units plus • 10 elective units. <p>Elective units must ensure the integrity of the qualification's Australian Qualification Framework (AQF) alignment and contribute to a valid, industry-supported vocational outcome. The electives are to be chosen as follows:</p> <ul style="list-style-type: none"> • at least 7 from the electives listed below, with at least 4 listed in Group A • up to 4 from the electives listed below from Group A or B, or from any currently endorsed Training Package or accredited course. 																	
<p>Core Units</p> <table border="1"> <tbody> <tr> <td>BSBR501</td> <td>Manage risk</td> </tr> <tr> <td>SFIAQU504</td> <td>Plan and implement environmentally sustainable aquacultural practices</td> </tr> </tbody> </table>		BSBR501	Manage risk	SFIAQU504	Plan and implement environmentally sustainable aquacultural practices												
BSBR501	Manage risk																
SFIAQU504	Plan and implement environmentally sustainable aquacultural practices																
<p>Elective Units</p> <p>Group A- Specialist electives</p> <table border="1"> <tbody> <tr> <td>SFIAQU501</td> <td>Develop a stock nutrition program</td> </tr> <tr> <td>SFIAQU502</td> <td>Develop and implement an aquaculture breeding strategy</td> </tr> <tr> <td>SFIAQU503</td> <td>Establish an aquacultural enterprise</td> </tr> <tr> <td>SFIAQU505</td> <td>Plan stock health management</td> </tr> <tr> <td>SFIAQU507</td> <td>Plan and design water supply and disposal systems</td> </tr> <tr> <td>SFIAQU508</td> <td>Plan and design stock culture or holding systems and structures</td> </tr> <tr> <td>SFIAQU509</td> <td>Develop stock production plan</td> </tr> <tr> <td>SFIAQU511</td> <td>Culture new aquaculture species</td> </tr> </tbody> </table>		SFIAQU501	Develop a stock nutrition program	SFIAQU502	Develop and implement an aquaculture breeding strategy	SFIAQU503	Establish an aquacultural enterprise	SFIAQU505	Plan stock health management	SFIAQU507	Plan and design water supply and disposal systems	SFIAQU508	Plan and design stock culture or holding systems and structures	SFIAQU509	Develop stock production plan	SFIAQU511	Culture new aquaculture species
SFIAQU501	Develop a stock nutrition program																
SFIAQU502	Develop and implement an aquaculture breeding strategy																
SFIAQU503	Establish an aquacultural enterprise																
SFIAQU505	Plan stock health management																
SFIAQU507	Plan and design water supply and disposal systems																
SFIAQU508	Plan and design stock culture or holding systems and structures																
SFIAQU509	Develop stock production plan																
SFIAQU511	Culture new aquaculture species																

SFIAQU512	Develop and implement an aquaculture genetic breeding program
SFIAQU513	Manage a farm based aquaculture research trial
Elective B – General electives	
AHCAGB502	Plan and manage infrastructure requirements
AHCAGB503	Plan and monitor production processes
AHCAGB505	Develop a whole farm plan
AHCAGB601	Develop export markets for produce
AHCCHM501	Develop and manage a chemical use strategy
AHCMOM501	Manage machinery and equipment
AHCWRK502	Collect and manage data
BSBATSIC411	Communicate with the community
BSBFIM501	Manage budgets and financial plans
BSBHRM506	Manage recruitment selection and induction processes
BSBINM601	Manage knowledge and information
BSBINN502	Build and sustain an innovative work environment
BSBLDR502	Lead and manage effective workplace relationships
BSBLDR505	Communicate with influence
BSBLED501	Develop a workplace learning environment
BSBMGT502	Manage people performance
BSBMGT515	Manage operational plan
BSBMGT516	Facilitate continuous improvement
BSBMGT605	Provide leadership across the organisation
BSBMGT616	Develop and implement strategic plans
BSBMGT617	Develop and implement a business plan
BSBPUR502	Manage supplier relationships
BSBPUR504	Manage a supply chain
BSBWHS501	Ensure a safe workplace
BSBWRK510	Manage employee relations
SFIXSI611	Participate in a media interview or presentation

Qualification Mapping Information

Code and title current version	Code and title previous version	Comments	Equivalence status
SFI50118 Diploma of Aquaculture	SFI50111 Diploma of Aquaculture	Revised packaging rules to better reflect outcomes. Total number of units reduced by 8 units in removing nesting of skills. Core units revised and decreased by 2 units.	Equivalent qualification
