| SFICPL308 | Monitor fish catches for legal compliance |
|--------------------------|--|
| Application | <p>This unit of competency describes the skills and knowledge required to monitor fish catches and fisheries quotas for legal compliance and record and report all compliance activities.</p> <p>The unit applies to individuals who assess fish catches against standards for specific species that may include size, quantity and types of catching equipment used in the catching process.</p> <p>All work must be carried out to comply with workplace procedures, according to state/territory health and safety, food safety, biosecurity and environmental regulations, legislation and standards that apply to the workplace.</p> <p>Regulatory requirements apply to this unit . Users are required to check with the relevant jurisdiction for current requirements.</p> |
| Prerequisite Unit | Nil |
| Unit Sector | Compliance (CPL) |

| Elements | Performance Criteria |
|--|---|
| <i>Elements describe the essential outcomes.</i> | <i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i> |
| 1. Monitor fish catches for legal compliance | 1.1 Monitor catches for compliance with regulated limits for species 1.2 Monitor fish catching devices for compliance with regulated limits, procedures, and registration and licence conditions 1.3 Identify and act upon breaches of legislation and regulations according to jurisdictional procedures 1.4 Carry out compliance monitoring activities according to accepted industry hygiene and sanitation practices 1.5 Carry out all compliance monitoring activities in a manner that ensures the safety of personnel and equipment 1.6 Record and report legal compliance monitoring activities according to jurisdictional procedures |
| 2. Monitor fisheries quota compliance | 2.1 Monitor catch and catch disposal records for compliance with industry and regulated reporting procedures 2.2 Compare estimated and actual weights of catch and identify variations greater than acceptable industry standards 2.3 Compare recorded and actual quantities of fish in catch and identify variations greater than accepted industry standards 2.4 Investigate non-compliant weight and quantity variations 2.5 Record and report fisheries quota compliance monitoring activities according to organisation procedures |
| 3. Monitor market documentation for fish sales and purchases | 3.1 Ensure market documentation matches purchase records and identify discrepancies 3.2 Ensure sales documentation and business records comply with regulations 3.3 Record and report sales and purchase compliance monitoring activities according to jurisdictional procedures |

| Foundation Skills | |
|--|--|
| <i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i> | |
| Skill | Description |
| Numeracy | <ul style="list-style-type: none"> Measure and compare quantities and weights |
| Reading | <ul style="list-style-type: none"> Interpret and compare records and documents |
| Writing | <ul style="list-style-type: none"> Record compliance monitoring activities |
| Navigate the world of work | <ul style="list-style-type: none"> Interpret and follow regulatory requirements and seek clarification or other assistance when required |
| Interact with others | <ul style="list-style-type: none"> Use appropriate vocabulary, conventions and protocols, including technical language relevant to role, to monitor and investigate compliance requirements and breaches Cooperate and collaborate with others to monitor legal and quota compliance |
| Get the work done | <ul style="list-style-type: none"> Plan and organise own work activities and resources |
