# Introduction

## About this Guide

This Companion Volume Implementation Guide (Implementation Guide) is designed to assist assessors, trainers, Registered Training Organisations (RTOs) and enterprises to use the *AHC Agriculture, Horticulture and Conservation and Land Management Training Package*.

## Structure of this Guide

This Implementation Guide for the *AHC Agriculture, Horticulture and Conservation and Land Management Training Package* consists of two parts. Each part can be downloaded from VETNet at: <https://vetnet.gov.au/Pages/Training Packages/Agriculture, Horticulture and Conservation and Land Management>.

This document is Part 2 and it includes:

- lists of the qualifications, skill sets and units of competency in the *AHC Agriculture, Horticulture and Conservation and Land Management Training Package V6.0*
- units of competency from the *AHC Agriculture, Horticulture and Conservation and Land Management Training Package V6.0* which have prerequisite requirements
- units of competency imported from other training packages
- mapping information for training package components (qualifications, skill sets and units of competency) that provides a summary of key changes.
- resources and equipment requirements.

## Note about Part 1

Please refer to the *AHC Agriculture, Horticulture and Conservation and Land Management Training Package Implementation Guide Release 6 Part 1: Overview and Implementation* file for:

- coding conventions used for qualifications and units of competency in the training package
- how mapping to previous versions of a training package can be useful for delivery and assessment
- key work, training and regulatory/licensing requirements in the industry
- training pathways
- occupational outcomes of qualifications
- entry requirements for qualifications
- access and equity considerations
- resources and equipment requirements.

## Units of competency with prerequisite requirements

Prerequisite requirements are listed in the unit of competency. In some cases, a chain of pre-requisites applies to a particular unit, for example, Unit A has Unit B as a prerequisite, but Unit B has Unit C as its prerequisite.

The following example shows the format used for prerequisite requirements in units of competency in this training package, using *AHCLSK218 Ride educated horses to carry out basic stock work* as an example.

The prerequisite units of competency for this unit are:	
<ul style="list-style-type: none"> <li>▪ ACMEQU202 Handle horses safely</li> <li>▪ ACMEQU206 Perform horse riding skills at walk, trot and canter.</li> </ul>	
Note the following chain of prerequisites that also applies to this unit.	
Unit of competency	Prerequisite requirement
ACMEQU202 Handle horses safely	ACMEQU205 Apply knowledge of horse behaviour
ACMEQU206 Perform horse riding skills at walk, trot and canter	ACMEQU202 Handle horses safely

The following table lists those *AHC* units of competency with prerequisite units of competency. Note that if a chain of prerequisites applies, then these are shown in bracketed text in the 'Prerequisite unit code and title' column.
