SFIAQU303	Monitor stock handling activities
Application	<p>This unit of competency describes the skills and knowledge required to monitor a range of aquaculture stock handling activities, including cleaning, moving and grading for cultured or held stock.</p> <p>The unit applies to individuals who are responsible for stock handling activities in an aquaculture environment, working under broad direction.</p> <p>All work must be carried out to comply with workplace procedures, according to state/territory health and safety, food safety, biosecurity and environmental regulations, legislation and standards that apply to the workplace.</p> <p>No licensing, legislative or certification requirements apply to this unit at the time of publication.</p>
Prerequisite Unit	Nil
Unit Sector	Aquaculture (AQU)

Elements	Performance Criteria
<i>Elements describe the essential outcomes.</i>	<i>Performance criteria describe the performance needed to demonstrate achievement of the element.</i>
1. Plan stock handling	1.1 Receive or obtain instructions for stock handling activities from supervisor 1.2 Identify risk factors that affect the health of stock during handling and plan to minimise risk 1.3 Identify resource requirements, including technology and equipment 1.4 Plan and communicate workplace stock handling procedures and safety precautions with team members
2. Organise stock handling	2.1 Collect required equipment, including personal protective equipment, and check for serviceability 2.2 Check holding structures are prepared before activities commence
3. Observe stock handling activities	3.1 Position equipment and operate according to workplace procedures 3.2 Monitor handling activities and ensure they are carried out in an efficient and timely manner 3.3 Check handling activities to minimise damage and stress to stock
4. Finalise and review stock handling activities	4.1 Check cleaning of work area and disposal of waste materials are completed according to workplace procedures 4.2 Check condition, maintenance requirements and storage of tools and equipment 4.3 Record relevant data and observations, and report any abnormal records to supervisor

Foundation Skills	
<i>This section describes those language, literacy, numeracy and employment skills that are essential for performance in this unit of competency but are not explicit in the performance criteria.</i>	
Skill	Description
Reading	<ul style="list-style-type: none"> • Interprets handling schedule and workplace procedures • Interprets labels and safety signs
Writing	<ul style="list-style-type: none"> • Completes workplace and compliance forms legibly and accurately using correct technical terminology
Numeracy	<ul style="list-style-type: none"> • Estimates time and resources needed for required activities
Oral communication	<ul style="list-style-type: none"> • Explains techniques to minimise damage and stress using language appropriate for audience
Interact with others	<ul style="list-style-type: none"> • Understands what to communicate, with whom and how, in routine work situations
Get the work done	<ul style="list-style-type: none"> • Plans, schedules and allocates stock handling tasks within time and resource constraints to achieve required outcomes
