<b>TITLE</b>	<b>Assessment requirements for AHCPGD305 Conduct operational inspection of park facilities</b>
--------------	--

**Performance Evidence**

An individual demonstrating competency must satisfy all of the elements and performance criteria in this unit.

There must be evidence that the individual ~~can~~ has conducted an operational inspection of park facilities on at least two occasions and has:

- applied workplace health and safety requirements
- selected, used and maintained tools and equipment required for operational testing and inspection of park facilities
- determined the purpose of the inspection and the facilities and equipment to be inspected and tested
- ~~carry out pre-operational and safety checks on tools and equipment~~
- clarified specific terminology used in checklists with the supervisor
- ~~identify workplace health and safety hazard, assess risks and implement controls~~
- interpreted design symbols and terminology
- compared actual measurements of inspected components with legal, Australian Standards, workplace health and safety and workplace/enterprise standards and specifications
- determined and reported ~~the degree of~~ urgent ~~and~~ to report serious situations
- evaluated the condition of facilities
- completed and submitted ~~use~~ proforma inspection reporting and workplace procedure documents.

**Knowledge Evidence**

An individual must be able to demonstrate the knowledge required to perform the tasks outlined in the elements and performance criteria of this unit. This includes knowledge of:

- workplace requirements applicable to health and safety in the workplace for conducting an operational inspection of park facilities, including appropriate use of personal protective equipment (PPE)
- principles and practices of park facility operational inspection, including:
  - different ~~modes or~~ areas of non-conformity that may be identified in ~~reference to~~ relevant Australian Standards and workplace health and safety requirements
  - identification, assessment and control of hazards
  - inspection procedures and techniques, and ~~legal and enterprise~~ workplace reporting requirements for maintenance, repair and replacement recommendations
  - principles and practices of park facility operational inspections
  - terminology used to describe different components of park or recreational facilities and equipment
  - operational expectations and enterprise standards for the presentation and working order of a range of park or recreational facilities and equipment
  - the range, use and safety parameters of park or recreational facilities and equipment, their material construction and maintenance requirements
  - workplace health and safety or occupational health and safety legislative requirements and codes of practice ~~associated with~~ applicable to public use of park facilities.

**Assessment Conditions**

Assessment of the skills in this unit of competency must take place under the following conditions:

- physical conditions:
  - a workplace setting or an environment that accurately represent workplace conditions
- resources, equipment and materials:
  - workplace procedures applicable to conducting an operational inspection of park facilities
  - materials, tools and equipment applicable to conducting an operational inspection of park facilities
  - site plans, checklists, forms and inspection report proformas applicable to conducting an operational inspection of park facilities
  - PPE applicable to conducting an operational inspection of park facilities
- specifications:
  - workplace requirements applicable to health and safety in the workplace for conducting an operational inspection of park facilities

### Assessment Conditions

- [workplace standards, Australian Standards applicable to public use of park facilities and conducting an operational inspection of park facilities](#)
- [workplace health and safety or occupational health and safety legislation and codes of practice applicable to public use of park facilities and conducting an operational inspection of park facilities](#)
- [relationships:](#)
  - [client or supervisor](#)
- [timeframes:](#)
  - [according to job requirements.](#)

Assessors of this unit must satisfy the requirements for assessors in applicable vocational education and training legislation, frameworks and/or standards.
